

NDC Sustainability Policy

Last reviewed 02/03/2023

Transport and geography

- We work mostly locally to minimise travel
- We encourage and help to organise lift shares to our events
- We use public transport where possible (although this is challenging in Cornwall).

Ideology

- All participants and collaborators are treated with respect.
- We encourage a positive and respectful relationship between self, others and environment.
- We aim to make everything we do help the world to be a better place
- We work with awareness of the political, social and environmental context we are operating in, including acknowledging the current climate and ecological crisis.
- We try to fuel our bodies using ethically sourced food

Purchases and equipment

- We print on recycled/FSC certified paper using vegetable inks for all major print runs
- We buy second hand whenever possible
- We minimize use of plastic, especially single-use.
- We design costume, set and props with sustainability in mind - wherever possible making things from recycled materials, buying second hand and reusing.
